5 YEAR ROTOR warranty

INERTIA ROTOR

- Four bar rotor allows two or four bar arrangements to optimize performance in a variety of applications
- Large 50" x 65" open style ribbed rotor delivers high inertia and requires less HP and fuel to operate
- Two adjustable aprons allowing high reduction ratios with a more cubical poduct with fewer fines. Apron liners are interchangeable and reversible
- 49" x 67" feed opening permits immediate impact of large product, decreasing the chance of bridged material

Impactor	HS 5066
Plant Weight	90,000 lbs
Travel Width	10'
Travel Height	13'-11"
Overall Length	43'-11"
Rotor Diameter & Width	50" dia - 65" wide
Feed Opening	42"H - 64"W
Vibrating Grizzly Feeder	5' x 20' (with 4' grizzly and 5" nominal spacing)
Feed Hopper Capacity	14 cubic yards (non heaping)
Power Supply	500 HP Diesel - 175 KW Generator
Hydraulic Lift/Leveling System	36" Stroke Jacking Legs (4)
Discharge System	Bottom/Side
